Connor Bespoke Box

Connor's papers are unique works of art, hand engraved, stamped individually by hand accompanied by hand lined envelopes. Hand engraving on steel by a master engraver offers a distinctive and beautiful product, immediately discernible from the everyday papers offered by other stationers, mass produced with indifferent quality. All Connor's sculpted dies are created by the most renowned master engravers in Paris.

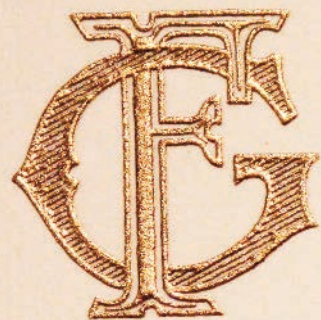

Engraved by hand in hardened steel or brass, dies and plates have been engraved in this manner since the early 19th century. Engraving in steel creates an impression with a level of detail impossible to achieve in copperplate engraving. The hardness of the steel offers generations of use without a loss of detail. Steel engraving can only be done by hand, not artificially produced by computers.

Hand engraved steel dies
